ABOUT ME

- Final-year Computer Engineering student at GEC Gandhinagar with strong MERN stack and backend development skills. Experienced in building RESTful APIs, authentication systems, and database-driven web applications using Node.js, Express.js, MongoDB, and React.js. I have solved 300+ DSA and coding problems across platforms like LeetCode and HackerRank, and enjoy writing clean, efficient code for scalable web applications.

EDUCATION

- BE (Computer Engineering) | GEC-GN, India CGPA : 8.65 |(22-26)
- Minor in Internet of Things (IoT) | GEC-GN, India Grade -AB (24-26)
- XII (GSEB) | Ashadeep Vidhyalay – 1, Surat (80.30% | 94.50PR) |(21-22)
- X (GSEB) | Ramkrushna Vidyabhavan, Surat (88.17% | 99.44PR) |(19-20)

SKILLS

- Programming Languages:** JavaScript, C++, Java, Python
- Backend Development & APIs:** Node.js, Express.js, RESTful API development, JWT Authentication, Middleware, Mongoose
- Frontend:** React.js, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap
- Databases:** MongoDB, MySQL, PostgreSQL, Database Design, Schema Design
- Tools & Practices:** Postman, Git, GitHub, VS Code, npm, Git Bash, Mongoose
- CS Fundamentals:** Data Structures & Algorithms (300+ problems), OOP, OS, DBMS, CN

CERTIFICATIONS

- Introduction to AI and Machine Learning**
 - Government of Gujarat | BSE Institute & RUSA Gujarat State
 - February 2025 | 10-day intensive program
 - Certificate No: RUSA/KCG/BSE/2025/1195
- Artificial Intelligence Summer Internship**
 - CSRBOX Foundation | GTU Program (Subject Code: 3170001)
 - July 2025 | 2-week hands-on training
 - Unique ID: CSRBOX2025AI0739

PROJECTS

- YouStreamPro | Node.js, Express.js, MongoDB, JWT, Cloudinary** ([GitHub](#))
 - Built scalable backend for video streaming platform using Node.js, Express.js, and MongoDB with optimized database queries and schema design.
 - Implemented secure JWT authentication, RESTful APIs with middleware validation, error handling, and authorization logic for protected routes.
 - Integrated Cloudinary for cloud media storage and seamless video upload functionality with proper file handling.
 - Developed comprehensive features: user management, video uploads, playlists, comments, likes, and real-time engagement analytics.
- Social_Blog_App | React.js, Appwrite, JavaScript, Tailwind CSS** ([GitHub](#))
 - Developed full-stack social blogging platform with React frontend and Appwrite backend, enabling secure user registration, authentication, and session management.
 - Implemented CRUD operations (create, read, update, delete) for blog posts with real-time content management and intuitive post editing interface.
 - Integrated cloud-based image upload and storage using Appwrite, enabling users to attach media files to blog posts with proper file handling.

ACHIEVEMENTS

- Winner of Ideathon** : Virtual Reality Therapy for Mental & Physical Health Proposed innovative VR-based therapeutic solution.
- Finalist of New India Hackathon (NIH)** : Government Scheme Portal - Developed full-stack portal using Angular.js, Express.js, and database integration. Handled both frontend and backend development with team collaboration via GitHub.
- Coordinator** : HackTheSpring'25 (Feb 28 - Mar 1, 2025) - Managed event planning, coordination, and smooth execution of 3-day hackathon.
